HENTSCHEL HAMBURG WATCH MANUFACTORY

It is time for a very special watch. Handmade, individual and most exquisite. Luxury watches can be bought all over the world, but who wouldn't want to wear a watch that is unique and was made exclusively for him? If you consider the acquisition of a premium watch it is surely something special and not a mass produced article that you anticipate.

The unique pieces or limited series that come from our manufactory are elaborately made by hand and on order of our customers, so you can be sure not to find your watch on every other wrist. For extra flexibility every Hentschel watch comes with two straps with an integrated quick-change-system, that allows you to change the strap easily at home.

A HENTSCHEL watch doesn't show its exclusivity and value in a flamboyant and in-your-face way. Our watches are rather the epitome of classic elegance and Hanseatic understatement – values that are highly appreciated by our customers.

The NEW H2 – consequently classic: In this brochure we introduce the NEW H2. A real handmade watch that amazes with its timeless clarity and shape. Every model is equipped with our manually wound manufactory caliber HUW 1130 S. The case made from stainless steel provides the necessary water resistance and shock protection.

THE PERFECT TIMEPIECE THE NEW H2 CLASSIC

**Handmade in Hamburg – sporty, elegant and stylish,
a watch for those with a discerning taste**

The NEW H2 CLASSIC is a genuine manufactory watch that inspires with serene looks and a movement of the highest quality and workmanship.

The interaction of the domed sapphire crystal, arced hands and curved dial is quintessentially HENTSCHEL. Fine brushed surfaces and polished edges are giving the watch case a striking visual depths and elegance from every angle while the tough stainless steel case is water- and shock resistant.

The NEW H2 CLASSIC is s true watch for a lifetime.

MANUFACTORY MOVEMENT HUW 1130 S

Exclusiveness doesn't stop on the inside: The new inhouse manufactory movement HUW 1130 S.

On the basis of the legendary Swiss Schild AS 1130 we have developed our latest manufactory movement. The curved bridges are newly constructed and are a reminiscence of the old pocket watch calibers from the early 20th. century. The swans neck regulator facilitates a precise regulation of the movement. Every component has been optimized with the emphasis on minimizing abrasive wear and the longevity of the wheels and the escapement. The new HUW 1130 S sets a new standard and combines robustness with precision.

HENTSCHEL HAMBURG – THE MOST PERSONAL WAY TO BUY A WATCH

There are times when you simply need something special. Often it is an important occasion or date which is the reason to think about a new watch for a cherished person or just for yourself.

HENTSCHEL watches are not just bought anywhere while you are on a shopping tour but the ideal way would be to buy it directly at our manufactory. On the other hand we have lots of experience in dealing with orders from abroad and have many happy customers outside of Germany.

Competent consultation: Ordering your own Hentschel watch is very much different to just shopping for a luxury watch “off the shelf”. Our consultation will guarantee you maximum competence, individuality and exclusiveness.

A personal relation right from the start: HENTSCHEL watches are not just simply bought on a whim. The majority of our customers order their HENTSCHEL watch after having talked to us on the phone, after e-mail communication or after they have visited us here in the manufactory in Hamburg.

CLASSIC TIMEPIECES FROM HAMBURG

A subtle distinction: In these times where most of the well-known watch brands are part of multinational corporate groups that produce their luxury goods on an industrial level, the decision for a handmade watch is a strong statement. Handmade and not just off the shelf as an expression of taste and personality.

The HENTSCHEL HAMBURG watch manufactory is a free and independent family business. We don't consider us a “watch brand” but a handicraft enterprise that has a close and personal contact with its customers.

Hentschel premium warranty: A HENTSCHEL watch is a companion for a lifetime and has our personal quality assurance – 63 months of guarantee. This sets a high standard in the watch trade in certitude and service.

A Hentschel watch is a watch for a lifetime. If a manufacturer wants to stay true to their word a well-made watch isn't enough. They also need an extensive and customer-oriented guarantee package.

The Hentschel premium-guarantee is unique. No other manufacturer offers their customers this amount of protection and service.

High quality even up to the smallest detail: All parts of a Hentschel watch are designed, manufactured by us or are built exclusively for us by German companies. We neither use parts made by other manufacturers or pre-made parts of so-called “private label assortment”. This is the factor that defines our high quality standard and guarantees the exclusive distinctiveness every Hentschel watch stands for.

“ *It is my goal as a watchmaker and founder
of the HENTSCHEL HAMBURG watch manufactory
to build your very personal watch and to make
this a great experience for you at the same time.*”
